5W__Questions

📄 **Abstract**

Make note atomic.

Point of capturing note is that I want get into the habit of capturing and if I feel the friction of, this is not atomic enough, not properly then less likely to capture notes as a habit. So you've given yourself the permission to just capture notes however you want to do it.

This note should have Questions, Ideas, Supplementary tools. Question tags question, Ideas tags paradox or counter-intuitive and Supplementary tools tags quote, anecdote and scientific study.

Status could be build(develop ideas), check(confirm idea, for accuracy, source, etc.), to-read and to-watch(find time to consume and take notes) as Input area. As output could anything if you want to contribute or publish status could be magazine name or instagram etc.

Title should be easy to find via keyword(general word). Putting the keywords that you think you will search for later down the line.

Idea:

1. 연속 메모리 할당과 페이징 메모리 할당에서 발생할 수 있는 문제를 각각 설명하시오.[1]
2. 페이지 테이블 엔트리의 구성 요소를 모두 설명하시오.[2]

Bearing:
